Uphold 1 bottom line of avoiding systematic risks

- ◆ Continuously improved systems and mechanisms, optimized the construction of the risk management system
- Strengthened key risk management to prevent potential major risks

Outlook: Continue to Advance the "3411 Project" 即區中国人民保险

2019 is the 70th anniversary of the founding of PRC, and the fundamentals for the insurance industry remain prosperous. China's economy performance is expected to remain within a reasonable range, and the social and livelihood policies amending weakness will be accelerated. In particular, the central government will further increase the financial subsidies for agricultural insurance and critical illness insurance. The government will further promote the social management of insurance services and will bring new policy opportunities for industry development.

PICC P&C: Deepen "2 Integrations", firmly advance "disintermediation, lowering costs, optimizing services, and enhancing stickiness"

PICC Life: Enhance sales forces for individual insurance, etc., strengthen the foundation and enhance business value

"3411 Project"

PICC Health: Strengthen construction of professional capacity, promote flattened business model, and improve cost-control ability for medical insurance

Notes: "2 Integrations" refer to the integration of policy-based business and commercial business, and the integration of business model reform and technology reform.

Investment Segment: Actively develop wealth management business while serving the main business. Strengthen business synergy with China Credit Trust
